

Quickroll™ Feed Rolls

Never take out, reinstall or send a feed roll out for re-covering again...No more crates to fool with...EVER!

Quickroll™ Feed Roll is a Wagner exclusive. **Never send another feed roll out to be recovered again with Quickroll™!** Made from our High-Performance, 35 or 40 durometer Duoflex™ material and comes in 4" wide segments. Segments can be loosened and rotated monthly, for longer life, or replaced, without taking the shaft out of the machine. ***If you have a spare shaft, ship to us, we will clean, grind and apply original Quickrolls™. We require .075" (minimum) of***

rubber all the way around. A minimum amount of grinding is included in the original price. Excessive grinding might incur a small extra charge. If you don't have spare core, you can have it cleaned and kiss ground locally and apply the Quickrolls™ yourself OR have Wagner manufacture a spare core for you right in our own plant! BEST OF ALL, used Quickroll™ segments are recoverable by us, for about 65% of their new price!

Other Feed Rolls from Wagner...

Duoflex™ Feed Roll

Wagner's Duoflex™ Feed Roll is our conventional Feed Roll, made from our proprietary, high-performance Duoflex™ urethane, guaranteed for long wear. ***Ship to us for covering, which is bonded to the core.***

No Crush Feed Roll

Wagner's No Crush Rolls Feed Rolls are engineered to give you maximum performance every day, without making any adjustments to your press. Product damage is drastically reduced. **No Crush Feed Rolls support a greater range of control over the machine speed to optimize registration. *Ship to us for covering, which is bonded to the core.***

Quickroll™ Feed Roll segments are available 4" wide. Simply loosen the socket head cap screws a few turns to rotate them monthly for longer wear. MHI Evol FFG's are covered full face, no spaces.

How many Quickrolls™ do I need for my feed roll? You will need one 4" Quickroll™ Segment for each 8" of face width. You can also choose to have the full face width covered in Quickrolls™.
