Fosber Heavy Duty Hold Down Brushes (should last 3 – 4 years or more). WI-5001* Part Numbers are for you to send your old brushes to us so we can strip out fiberglass brushes out and clean, drill and tap holes to mount to accept our brushes. We will issue you a credit for all old bars shipped to us (credit shipping cost).

The below list of brushes are for Fosber brushes:

For Fosber 98" Corrugators, both 100.4375" brushes and 107.4375" wide bars (uses 9 brush segments)

For Fosber 110" Corrugator 119.25" wide bars (uses 10 brush segments)

WI-5001*, to convert any size Fosber aluminum bar with old brushes attached to accept Wagner brushes (listed below). You provide old brush (bar and fiberglass bristles). We clean and prepare old bar for our new brushes.

WI-5000, Wagner Hold Down Brush (1/2" thick urethane spine to absorb impact and reduce jam-up with Spring Steel Tines for long wear), 11" wide x 13.940" long. For stations 2, 3, 4 and 5. Replaces OEM Part Numbers 2091030902, 2091030908 and 2091030919.

WI-5002, Wagner Hold Down Brush (1/2" thick urethane spine to absorb impact and reduce jam-ups with Spring Steel Tines for long wear), 11" wide x 12.910" long. For 1st station. Replaces OEM Part Numbers 2091030901, 2091030907 and 2091030918.

WI-5003, Wagner Hold Down Brush (1/2" thick urethane spine to absorb impact and reduce jam-ups with Spring Steel Tines for long wear), 11" side x 15.16" long. For exit station. Replaces OEM Part Number 2091030910

*Requires you to ship old brushes to Wagner Industries, 6 Starter Drive, Frackville, PA 17931. We strip clean and prepare the brushes to accept our brushes. Bar and Brushes are shipped to you separately to cut shipping costs.

PLEASE REQUEST RETURN OF YOUR SHIPPING CONTAINER, OTHERWISE IT WILL BE KEPT AT OUR PLANT.
