Please visit us @ Dovey.us

If you have a problem with **STARCH GELLING** and **WATER WASTAGE** at the singlefacers which is costly, DOVEY has the solution. The DOVEY-Chilling Chiller is easily installed and is virtually maintenance free.

Installation of this system is a highly effective and fast method of cutting operating costs by saving water and sewer expense. The unit has thermostatic controls that allow the temperature of the return water to be raised or lowered at will. Most important of all, **incidence of starch gelling is eliminated.** Chiller Units available from 2 – 25 tons.

Please use the above **TOLL FREE** phone number to inquire about price, delivery and any capacity information.
