Dovey Moisture Meter Model AD4S

Dovey Model AD4A Moisture Meter with universal application, Paper, Wood, Building Materials, etc., with Data Logger for relative air moisture, air temperature, dew point and surface temperature.

For material moisture measurement without invasion, simply touch the surface with the sensors and the moisture value is displayed.

- Capacitive moisture measuring principle;
- Analog and digital display
- Big display window with integrated backlight;
- Easy material adjustment with turning knob control;
- Automatic zero point correction
- Produces excellent results for measuring differences
- Calibration checks possible with our test PE05 and PE30 (optional);
- Uses 2 "AA" type batteries.

For each instrument, up to 500, in groups, sorted material settings can be stored. The selected material is displayed in the top of the display as a text. Fixed calibration curves for different materials are already implemented.

Price \$965.00* (8/1/2017) *Price Subject to change

Options include Test Modules PE05 and PE30; Air humidity and air temp. sensors; surface temp. sensors; and PC Software AD4A-S including interface cable.

Specifications

Measuring Range:	0.0 – 100.0 H2O (adjustable)
Resolution:	0.1%
Measuring Depth:	ca. 3 cm
Damping:	0 – 9(adjustable)
Storage:	16 x 128 material moisture Values; 16,000 sensor values (data logger)
Dimensions:	7 7/8" x 3 1/8" x 1 1/2"
Weight:	7 ounces
Interface:	RS232/ADA4-S
